CE The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

CAT III Third-party type approval is required for all Category III personal protective equipment (PPE) products. CAT III products will be accompanied by a notified body number for the 3rd party verification of the product's safety.

The product is fully breathable making it more comfortable for a longer period of time, maintaining skin integrity.

The product does not contain latex.

The product is only for single-use.

EN1149-5:2008 The standard specifies the requirements for protective clothing and their electrostatic properties, material performance and construction requirements.

EN13034:2005 The standard specifies the requirements for protective clothing against liquid chemicals and their performance requirements for chemical protective clothing which provides limited protection against liquid chemicals.

EN13982-1:2004 The standard specifies the requirements for protective clothing for use against solid particles and the performance requirements for chemical protective suits that provide full body protection against solid airborne particles.
