Dermatologically tested

MD CE

Product Description

Abri-Flex is our premium range of modern pull-ups that can be worn like normal underwear for moderate to heavy incontinence.The discreet pull-up pants are made from breathable and super soft material to maintain healthy skin. The waist band offers a secure and comfortable fit for the active use. The products feature the Top-Dry system for optimum comfort and skin integrity. The efficient core technology provides rapid absoprtion. A combination of leakage barriers (lengthwise and cross barriers) and elastics offer ultimate leakage protection 360 degrees around the product. The odor system minimises unpleasant smells. The wetness indicator with graduation scale (except size XS1) guides the user and carer to the product with the right absorption level. For discreet disposal roll up the product and secure it with the built-in z-tape at the back.

Top Dry · Air Plus · ODOR SYSTEM · BARRIERS · LATEX

MD

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

Dermatologically tested

The Dermatologically Tested symbol guarantees that products have been tested for potential skin irritations by an independent third-party laboratory.

CE

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

Top Dry

Unique Top-Dry system that provides a rapid absorption and a dry surface even after repeated urination.

ODOR SYSTEM

Abena's incontinence products are designed and engineered to ensure minimal odor arises from the product. Odor control is a critical factor in ensuring discreteness for the user.

LATEX

The product does not contain latex.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.

BARRIERS

The product is equipped with barriers to prevent leakage.

Air Plus

The product is fully breathable making it more comfortable for a longer period of time, maintaining skin integrity.
