Cradle to Cradle Gold is an international product certification that evaluates products from raw material to recyclability. One of the requirements for a product to achieve a Gold certification is that 50% of the energy used for production must come from renewable energy and the raw materials must come from sustainable solutions.

The EU Ecolabel, also known as the EU Flower, is the official environmental label in Europe. Products with the EU Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.
