MAXX Into Synbiotic Special

SYNBIOTIC SANITARY CLEANER

Performance

- A combination of prebiotics and probiotics plus effective biodegradable surfactants delivers professional cleaning effects immediately from application but also continues to clean for hours after application
- Effectively manages a balanced microbiome for safer and effective deep cleaning
- Helps to deliver the highest possible performance on washroom soils
- Synbiotics clean at a microscopic level helping to prevent limescale build up even without aggressive acids

Efficiency

- Effective in low concentrations on all sanitary surfaces
- Helps to reduce task time and the intensity of cleaning action required
- Delivers a continuous cycle of cleaning

Safety

- No requirement for special safety training
- Colour coding for clear usage and identification
- Material friendly formulation

Sustainability

- Readily biodegradable
- Maintains a natural microbial balance
- Up to 66%*reduction of CO2 emissions associated with packaging

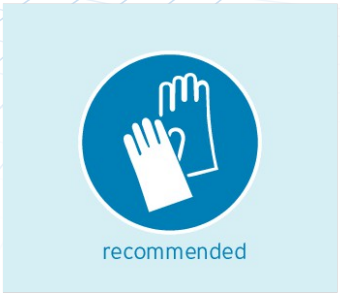

*Based on ~ 100% PCR versus virgin plastic

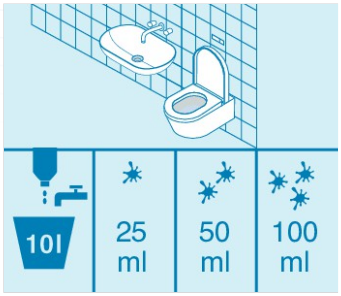

Use instructions

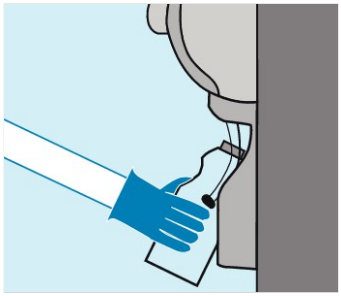

1. Check hygiene plan and product label for detailed use information.

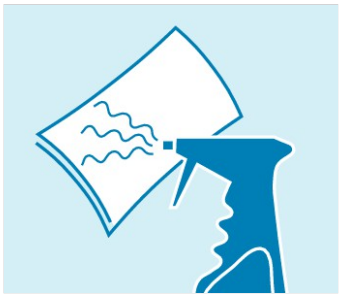

2. Wear suitable protective clothing when handling the product.

3. Depending on soiling and surface, add 25-100 ml **MAXX Into Synbiotic Special** to 10 L water. For daily cleaning with normal soiling, mix 25 ml with 10 L water.

4. Only for use with Ecolab Dosing Unit. Your Ecolab specialist will adjust the dosing system to your specific procedures.

5. Use a foam sprayer to spray it onto the cloth. We recommend using **MAXX Into Synbiotic Special** in combination with our colour-coded polifix® Planet series microfibre cloths to avoid cross-contamination.

6. Wipe the surface and leave to dry. We recommend using **MAXX Into Synbiotic Special** in combination with our colour-coded polifix Planet series microfibre cloths to avoid cross-contamination.

7. No rinsing required.

8. Not allowed for food contact surfaces.

Special notes

- Use solution up within 7 days. Follow cleaning procedure on the refill bottle.
- Test material compatibility in a small inconspicuous area prior to application.
- **For professional use only.**
- Safety data sheet available for professional users on request.

Safety information

- Do not mix with any other product.
- For further information and safety instructions, please see product label and Safety Data Sheet.
- The product should not be used on surfaces in contact with food.

Storage conditions

- Storage between 0 °C and 50 °C in original closed container only. Protect from direct sunlight.
- Follow expiration date on packaging.
