

Product Main Number 1999911299

Floor polish, Green Care Professional LONGLIFE hospital, 5 l, non-slip, with coloring, without scent

Product Description

LONGLIFE Hospital is an effective polishing agent, specifically intended for hospitals and health clinics. The agent is extremely resistant to alcohol-free surface disinfectants. It has high abrasion resistance and therefore thoroughly protects the floor against wear. The emulsifying polishing agent works very well in areas with specific hygiene requirements, and is both time and cost-saving. LONGLIFE Hospital is recommended for places where an excellent appearance and a robust protective film are required. As a safety measure, LONGLIFE Hospital is non-slip, even under heavy loads thanks to the efficient care components (according to DIN51131). LONGLIFE Hospital is also very resistant to heel marks and dirt, enduring the floor remains clean for a longer time. The product is quick and easy to use and provides a uniform appearance. High-speed polishing improves durability. The agent is very suitable for the maintenance of waterproof floors, especially in healthcare institutions such as hospitals, medical clinics, retirement homes, rehab centers, etc. Do not use on unsealed wood. Test the product on a small area before using on elastomeric coatings.

Specifications

Base name	Floor polish

pcs	5000 ml				4031278960389

EMAS (Eco-Management and Audit Scheme) is the EU environmental management scheme that companies can voluntarily choose to become part of. EMAS is used to evaluate, report, and reduce companies' environmental impact in the form of energy, resource consumption, waste production, and emissions.

Products with the label "Austrian Ecolabel" are exposed to a holistic evaluation that centers around the environmental effects of the use of a product, such as the production process and the disposal process, as well an evaluation of the quality and fitness for use ("lifecycle").
The "Austrian Ecolabel" was created in 1990 and is an initiative that provides the general public with information on the environmental impact of consumer goods, that arises from their production, usage and disposal.
