LIME JUICE FROM CONCENTRATE

Composition

Lime Juice (*Citrus latifolia* and/or *Citrus aurantifolia)* obtained from squeezing and vacuum concentrated lime juice and preserved with potassium methabisulphite (E224).

Country of origin:

Lime juice: Central and South America (Mexico, Brasil, Perù).
Potassium metabisulphite: Italy.

Ingredients

Lime juice (99,94%), preservative: potassium metabi**sulphite.**

Allergens

Sulphites

GMO Status

The product is GMO free

Organoleptic Specifications

Appearance: liquid with presence of pulp

Colour: yellow-green, cloudy

Smell: typical of lime, without unpleasant notes

Taste: typical of lime, not much astringent

Chemical Specifications

Parameter	**Values**	**Unit of Measure**	**Methodical***
Optical residual (refrattometrico)	min.7	Brix degree	(IFFJP-8)
Acidity (as citric acid anhydrous)	min. 45	g/l	(IFFJP-3)
E224 (potassium metabisulphite)	350 ppm max (as SO2)		(IFU N.7a-1987)
Pesticides	limit of law		

N° 46 Rev. 9 del 14/04/21

LIME JUICE FROM CONCENTRATE

Heavy metals	limit of law

Physical Specifications

Parameter	Values	Unit of Measure	Methodical*
Foreign bodies	absent		

* IFFJP: International Federation of Fruit Juice Producer; IFU: International Fruchtsaft Union

Microbiological Specifications

Parameter	Values	Unit of measure	Methodical*
TBC	<100	c.f.u./ml	(ISO 2293)
Moulds and yeasts	<10	c.f.u./ml	(ISO 7954)

Nutritional Specification media (from analysis in an external laboratory)

Average per 100 ml:

NUTRITION INFORMATION	
AVERAGES VALUES FOR 100 ML	
Energy	118 kJ/28 kcal
Fat	< 0,5 g
of which saturates	0 g
Carbohydrate	1 g
of which sugars	0,8 g
Protein	0,4 g
Salt	< 0,01 g

Preservation Modalities

Packed product: keep in cool dry place, far from sunrays

Open Product: close after opening and preserve in refrigerator

Shelf life

12 months from production date in whole containers and respecting the specified modalities.
